

# 1. Identification

Product identifier	RTV Silicone Adhesive & Sealant - Clear (pressurized) - 6.5 oz
Other means of identification	
Product Code	No. 14055 (Item# 1004788)
Recommended use	Sealant and adhesive
Recommended restrictions	None known.
Manufacturer/Importer/Supplier/	Distributor information
Manufactured or sold by:	
Company name	CRC Industries, Inc.
Address	885 Louis Dr.
	Warminster, PA 18974 US
Telephone	
General Information	215-674-4300
Technical Assistance	800-521-3168
Customer Service	800-272-4620
24-Hour Emergency (CHEMTREC)	800-424-9300 (US)
Website	www.crcindustries.com
2. Hazard(s) identification	
Physical hazards	Gases under pressure Compressed gas
Health hazards	Not classified.
Environmental hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Signal word	Warning
Hazard statement	Contains gas under pressure; may explode if heated.
Precautionary statement	
Prevention	Observe good industrial hygiene practices. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 49 °C/120 °F. Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying.
Response	Wash hands after handling.
Storage	Protect from sunlight. Store in a well-ventilated place. Exposure to high temperature may cause can to burst.
Disposal	Dispose of contents/container in accordance with local/regional/national regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	When heated to temperature above 300°F/150°C in the presence of air, product may form formaldehyde vapors. When exposed to water or humid air, product evolves acetic acid (HOAc).

# 3. Composition/information on ingredients

**Mixtures** 

Chemical name	Common name and synonyms	CAS number	%
amorphous silica		7631-86-9	5 - 10
Material name: RTV Silicone Ad	nesive & Sealant - Clear (pressurized) - 6.5 oz		SDS US

Chemical name	Common name and synonyms	CAS number	%
distillates (petroleum), hydrotrea middle	ated	64742-46-7	5 - 10
Specific chemical identity and/or p	ercentage of composition has been withheld as	a trade secret.	
4. First-aid measures			
Inhalation	Move to fresh air. Call a physician if symptom	s develop or persist.	
Skin contact	Wash with water and soap as a precaution. G persists.	et medical attention if irritation	develops and
Eye contact	Flush eyes with water as a precaution. If eye i		
Ingestion	If swallowed, do NOT induce vomiting. Get me thoroughly.	edical attention if symptoms or	cur. Rinse mouth
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary	y irritation.	
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat	at symptomatically.	
General information	Ensure that medical personnel are aware of the protect themselves.	ne material(s) involved, and tal	ke precautions to
5. Fire-fighting measures			
Suitable extinguishing media	Water. Alcohol resistant foam. Dry chemical p	owder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	None known.		
Specific hazards arising from the chemical	During fire, gases hazardous to health may be	e formed.	
Special protective equipment and precautions for firefighters	Firefighters must use standard protective equi face shield, gloves, rubber boots, and in enclo		nt coat, helmet with
Fire-fighting equipment/instructions	In case of fire: Stop leak if safe to do so. Move risk. Cool containers exposed to heat with wa		
General fire hazards	Contents under pressure. Pressurized contain	her may rupture when exposed	to heat or flame.
6. Accidental release mea	sures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep peo low areas. Many gases are heavier than air ar confined areas (sewers, basements, tanks). V during clean-up. Emergency personnel need s damaged containers or spilled material unless closed spaces before entering them. Local au cannot be contained. For personal protection,	nd will spread along ground an Vear appropriate protective eq self-contained breathing equip s wearing appropriate protectiv thorities should be advised if s	d collect in low or upment and clothing ment. Do not touch e clothing. Ventilate
Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flar combustibles (wood, paper, oil, etc.) away fro without risk. For waste disposal, see section 1	m spilled material. Stop the flo	
Environmental precautions	Avoid discharge into drains, water courses or		
7. Handling and storage			
Precautions for safe handling	Pressurized container: Do not pierce or burn, or defective. Do not spray on a naked flame o while using or until sprayed surface is thoroug expose containers to heat, flame, sparks, or o energized equipment. The metal container wil may result in injury to the user from electrical areas. Wear appropriate personal protective e practices. For product usage instructions, see	r any other incandescent mate phly dry. Do not cut, weld, sold ther sources of ignition. Use c I conduct electricity if it contac shock and/or flash fire. Use or equipment. Observe good indu	rial. Do not smoke er, drill, grind, or aution around ts a live source. This ly in well-ventilated
Conditions for safe storage, including any incompatibilities	Level 1 Aerosol. Contents under pressure. Do not expose to he can may burst. Do not puncture, incinerate or heat or other sources of ignition. Store in a we materials (see Section 10 of the SDS).	crush. Do not handle or store	near an open flame,
Material name: RTV Silicone Adhesive	e & Sealant - Clear (pressurized) - 6.5 oz		SDS U

### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Components	for Air Contaminants (29 CFR 1910.1000 Type	Value	Form
distillates (petroleum), hydrotreated middle (CAS 64742-46-7)	PEL	5 mg/m3	Mist.
US. OSHA Table Z-3 (29 CF	R 1910.1000)		
Components	Туре	Value	
amorphous silica (CAS 7631-86-9)	TWA	0.8 mg/m3	
		20 mppcf	
US. ACGIH Threshold Limi	t Values		
Components	Туре	Value	Form
distillates (petroleum), hydrotreated middle (CAS 64742-46-7)	TWA	5 mg/m3	Inhalable fraction.
US. NIOSH: Pocket Guide f	to Chemical Hazards		
Components	Туре	Value	Form
amorphous silica (CAS 7631-86-9)	TWA	6 mg/m3	
distillates (petroleum), hydrotreated middle (CAS 64742-46-7)	STEL	10 mg/m3	Mist.
	TWA	5 mg/m3	Mist.
ological limit values	No biological exposure limits noted for th	ne ingredient(s).	
posure guidelines	Occupational Exposure Limits are not re	levant to the current physic	al form of the product.
propriate engineering ntrols	Good general ventilation (typically 10 air should be matched to conditions. If appli or other engineering controls to maintain exposure limits have not been establishe eyewash station.	cable, use process enclosu a airborne levels below reco	ures, local exhaust ventilation, ommended exposure limits. If
•	s, such as personal protective equipment		
Eye/face protection	Wear safety glasses with side shields (or	r goggles).	
Skin protection Hand protection	Wear protective gloves such as: Nitrile.	Butyl rubber.	
Other	Wear appropriate chemical resistant clot	hing.	
Respiratory protection	If engineering controls are not feasible o NIOSH-approved cartridge respirator wit breathing apparatus in confined spaces determine actual employee exposure lev	h an organic vapor cartridg and for emergencies. Air m	e. Use a self-contained
Thermal hazards	Wear appropriate thermal protective clot		
neral hygiene nsiderations	Observe any medical surveillance requir personal hygiene measures, such as wa drinking, and/or smoking. Routinely was contaminants. Contaminated work clothi	shing after handling the ma sh work clothing and protec	aterial and before eating, tive equipment to remove

### 9. Physical and chemical properties

Appearance	
Physical state	Solid, Liquid.
Form	Paste.
Color	Translucent.
Odor	Acetic acid.

	Not available.	
рН	Not available.	
Melting point/freezing point	Not available.	
Initial boiling point and boiling range	680 °F (360 °C) estimated	
Flash point	> 212 °F (> 100 °C)	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Upper/lower flammability or exp	plosive limits	
Flammability limit - lower (%)	Not available.	
Flammability limit - upper (%)	Not available.	
Vapor pressure	4.2 hPa estimated	
Vapor density	Not available.	
Relative density	1.01	
Solubility(ies)		
Solubility (water)	Not available.	
Partition coefficient (n-octanol/water)	Not available.	
Auto-ignition temperature	500 °F (260 °C) estimated	
Decomposition temperature	Not available.	
Percent volatile	< 3 %	

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Heat, flames and sparks. Contact with incompatible materials. When heated to temperature above 300°F/150°C in the presence of air, product may form formaldehyde vapors. When exposed to water or humid air, product evolves acetic acid (HOAc).
Incompatible materials	Strong oxidizing agents. Water, moisture.
Hazardous decomposition products	Carbon oxides. Silicone oxides. Formaldehyde.

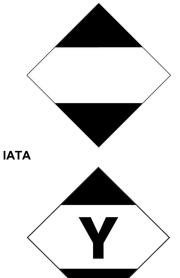

# 11. Toxicological information

Information on likely routes of	exposure	
Inhalation	Prolonged inhalation may b	e harmful.
Skin contact	Prolonged skin contact may	cause temporary irritation.
Eye contact	Direct contact with eyes ma	y cause temporary irritation.
Ingestion	Health injuries are not know	n or expected under normal use.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes ma	y cause temporary irritation.
Information on toxicological ef	fects	
Acute toxicity	Not known.	
Components	Species	Test Results
amorphous silica (CAS 7631-86-9	9)	
<u>Acute</u>		
Oral		
LD50	Rat	> 22500 mg/kg
Skin corrosion/irritation	Prolonged skin contact may	cause temporary irritation.

Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.
Respiratory or skin sensitization	
<b>Respiratory sensitization</b>	Not a respiratory sensitizer.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
IARC Monographs. Overall E	valuation of Carcinogenicity
amorphous silica (CAS 76 OSHA Specifically Regulate	31-86-9) 3 Not classifiable as to carcinogenicity to humans. <b>3 Substances (29 CFR 1910.1001-1052)</b>
Not regulated.	
US. National Toxicology Pro	gram (NTP) Report on Carcinogens
Not listed.	
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not an aspiration hazard.
12. Ecological information	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the
Lootoxiolty	possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.
Bioaccumulative potential	
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
	potential, endocrine disruption, global warming potential) are expected from this component.
13. Disposal consideration	potential, endocrine disruption, global warming potential) are expected from this component.
